

Master Degree in Neuroscience

UNIVERSITÀ DI PISA
Department of Biology

A two-year Master Degree in Neuroscience, held in English, will be opened in the academic year 2016 - 17 in collaboration between the University of Pisa and the Scuola Normale Superiore, with the contribution of the Institute of Neuroscience of CNR. This Master Degree will continue the tradition of excellence in Neuroscience in Pisa, pioneered by Giuseppe Moruzzi in the 1950's and 60's and flourished thereafter with Lamberto Maffei. With such a strong scientific legacy, Pisa offers a very active and competitive scientific environment for studies in Neuroscience. Aim of the course is to provide an interdisciplinary training spanning across a wide variety of experimental and computational approaches of contemporary Neuroscience, from the molecular and cellular level to the analysis of higher cognitive functions in the human brain. We wish to attract into Neuroscience not only BSc, or equivalent, possessing strictly biologic backgrounds, but also students coming from a wide range of different educational routes.

The teachers:

Paola Binda - Unipi - CNR
Ranieri Bizzarri - CNR
Matteo Caleo - CNR
Simona Capsoni - SNS
Giovanni Casini - Unipi
Antonino Cattaneo - SNS
Alessandro Cellerino - SNS
Federico Cremisi - SNS
Massimo Dal Monte - Unipi
Francesco Fornai - Unipi
Anna Gagliardo - Unipi
Rita Giuliano - Unipi
Stefano Landi - Unipi
Bianca Longoni - Unipi
Maria Concetta Morrone - Unipi
Nicola Origlia - CNR
Massimo Pasqualetti - Unipi
Vittoria Raffa - Unipi
Gian Michele Ratto - SNS, CNR
Riccardo Ruffoli - Unipi
Alessandro Sale - CNR
Enrica Strettoi - CNR
Maria Grazia Tozzi - Unipi
Robert Vignali - Unipi
